01 / GET READY

Welcome to GRIDVECTA

GRIDVECTA is a professional logo grid and vector construction plugin for Adobe Illustrator. This guide takes you from installing the supplied package to opening the panel and starting your trial or activating your license.

SYSTEM REQUIREMENTS

Adobe Illustrator	Version 30.0 or later
Operating system	Windows or macOS
Internet connection	Required for initial trial / license activation

PACKAGE CONTENTS

GRIDVECTA-v1.1.0.zxp

The supplied installation guide

BEFORE INSTALLATION

- 01 Close Adobe Illustrator completely.
- 02 Make sure Illustrator and Adobe Creative Cloud are installed.
- 03 Locate the downloaded ZXP package, for example in Downloads.

GO DIRECTLY TO

Windows installation	03
macOS installation	04

02 / INSTALL

Windows installation

Install the supplied .ZXP package with a trusted graphical ZXP installer that supports Windows.

Get a ZXP installer

Example: aescrpts + aeplugins ZXP/UXP Installer

01

Prepare the installer

Download and install a trusted ZXP installer for Windows. Close Adobe Illustrator before installing GRIDVECTA.

02

Choose the GRIDVECTA package

Open the installer. Select **GRIDVECTA-v1.1.0.zxp** using its file-selection option, or drag the package into the installer if supported.

03

Complete installation

Approve a Windows permission prompt if the installer requests one. Wait until the installer confirms that installation is complete.

04

Restart Adobe Illustrator

Fully close and reopen Illustrator. Then open the GRIDVECTA panel using the menu path on page 5.

Keep the supplied package intact

Do not unpack or modify the ZXP contents. The graphical installer is a third-party tool, separate from Adobe and GRIDVECTA.

03 / INSTALL

macOS installation

Install the supplied .ZXP package with a trusted graphical ZXP installer that supports macOS.

Get a ZXP installer

Example: aescrpts + aeplugins ZXP/UXP Installer

01

Prepare the installer

Download and install a trusted ZXP installer compatible with your Mac. Quit Adobe Illustrator before installing GRIDVECTA.

02

Choose the GRIDVECTA package

Open the installer. Drag **GRIDVECTA-v1.1.0.zxp** into its window, or choose the package using its file-selection option.

03

Complete installation

If the installer requests macOS permission or an administrator password, approve the installation. Wait for the success confirmation.

04

Restart Adobe Illustrator

Quit and reopen Illustrator. Then open the GRIDVECTA panel using the menu path on page 5.

Use the original ZXP package

Do not unpack or modify the package contents. Follow the installer provider's instructions for your Mac if its setup differs.

Opening GRIDVECTA

After installation, restart Adobe Illustrator and open GRIDVECTA from the application menu.

OPEN IN ADOBE ILLUSTRATOR

Window > Extensions (Legacy) > GRIDVECTA

1

Adobe Illustrator

Launch Illustrator 30.0 or later.

2

Window

Open the Window menu in Illustrator.

3

Extensions (Legacy)

Find the Extensions (Legacy) submenu.

4

GRIDVECTA

Select GRIDVECTA to open its panel.

The panel is listed under Extensions (Legacy)

GRIDVECTA v1.1.0 uses this Illustrator menu. If it is missing, check the solutions on page 7.

05 / ACTIVATE

Trial & license activation

When GRIDVECTA opens, use its licensing screen to start the free trial or activate a purchased license.

7-Day Free Trial

Internet required to start

Lifetime License

Up to 2 devices • No subscription

START YOUR FREE TRIAL

1. Connect your device to the internet.
2. Open GRIDVECTA and select the trial option on the licensing screen.
3. Follow the on-screen prompts to start the 7-day free trial.

ACTIVATE A PURCHASED LICENSE

1. Connect your device to the internet and open GRIDVECTA.
2. Enter your purchased license key exactly as supplied.
3. Select the activation option and follow the on-screen prompts.
4. Wait for the panel to confirm that your license is active.

Your license, on up to two devices

Install the same package on a second supported device and activate it with the same license. Keep your key private. After a valid license is stored, offline use depends on the current license state.

Troubleshooting

Start with the matching problem below. If it persists, contact GRIDVECTA using the details on page 9.

PROBLEM **GRIDVECTA does not appear in Illustrator**

SOLUTION Confirm Illustrator is version 30.0 or later. Look under **Window > Extensions (Legacy)** and restart Illustrator completely.

PROBLEM **ZXP installation fails**

SOLUTION Close Illustrator and retry. Check that the downloaded ZXP file is complete and unchanged. If needed, use the advanced UPIA fallback on page 8.

PROBLEM **The installer succeeded, but the panel is missing**

SOLUTION Fully quit Illustrator, then reopen it. Check the menu path on page 5 after restarting.

PROBLEM **License activation fails**

SOLUTION Enter the license key exactly as supplied. Check your internet connection and retry activation.

PROBLEM **An internet connection issue prevents activation**

SOLUTION Restore the connection and retry. Internet access is required to start the trial and for initial license activation.

PROBLEM **Installing on a second device**

SOLUTION Install GRIDVECTA on the second supported device and use the same purchased license. Stay within the limit of 2 devices.

07 / TROUBLESHOOTING

Advanced installation

If a graphical installer fails or is unavailable, Adobe's Unified Plugin Installer Agent (UPIA) provides an advanced command-line fallback. It is supplied with supported Adobe Creative Cloud desktop installations.

Close Illustrator and sign in to Creative Cloud. The examples below assume the ZXP is in your **Downloads** folder; change only the package path if it is elsewhere.

WINDOWS / COMMAND PROMPT

```
cd /d "%CommonProgramFiles%\Adobe\Adobe Desktop Common"
cd "RemoteComponents\UPI\UnifiedPluginInstallerAgent"
UnifiedPluginInstallerAgent.exe /install ^
"%USERPROFILE%\Downloads\GRIDVECTA-v1.1.0.zxp"
```

MACOS / TERMINAL

```
cd "/Library/Application Support/Adobe/Adobe Desktop Common"
cd "RemoteComponents/UIP/UnifiedPluginInstallerAgent"
cd "UnifiedPluginInstallerAgent.app/Contents/MacOS"
./UnifiedPluginInstallerAgent --install \
"$HOME/Downloads/GRIDVECTA-v1.1.0.zxp"
```

Copy each block into the named shell. The ^ (Windows) and \ (macOS) characters continue the install command onto the following line. After success, restart Illustrator and open GRIDVECTA.

UPIA missing? Repair or reinstall the Adobe Creative Cloud desktop application, then retry. If an error persists, contact GRIDVECTA support.
